Ripórtico works in virtually all areas of construction – from major infrastructure projects as roads, bridges, tunnels, railways, requalification urban projects of hotels, public buildings and projects related to the environment – as of sewage treatment systems, or even water supply dams.</p> <p>We have a department of design and other management and supervision of works.</p> <p>We are present in Brazil, but also in Africa – countries as Angola, Mozambique and Cape Verde or Portugal in Europe. Founded in 2004, the rapid implementation and fidelization of demanding clients relied on the provision of services with a differentiating quality, fulfilment of deadlines and the seriousness that characterizes all of our business relations. That is how we will proceed, with the same values and same attitude, in the challenges that await us.</p> <p>Main Expertise</p> <ul style="list-style-type: none"> • Works Management and Supervision • Safety Coordination • Studies and Designs • Technical Consultancy <p>Services</p> <ul style="list-style-type: none"> • Buildings • Roads and Viaducts • Urban Planning • WWTS • Water Treatment • Conception of Micro-Generation Systems • Urban Renewal • Hydraulics • Building's thermic behaviour characterization • Acoustic Conditioning Studies • Safety against Fire • Electrical Infrastructures • Telecommunications Infrastructures • Landscaping • Architecture <p>Significant Last Works</p> <ul style="list-style-type: none"> • Works Management and Supervision, Safety Coordination: <ul style="list-style-type: none"> – Quality Supervision and Management of the Execution and Enlargement of the Protection Levee, Disposal Pipe, Interceptor, Water System and WWTS of Coruche, 9.355.779 € – Supervision and Safety Coordination of the Road Project EM527 – Av. da Praia de Cortegaça – 892.803 € – Supervision and Safety Coordination of the Art Centre of Ovar City – 2.425.366 € – Supervision and Safety Coordination of the Construction of the Network of Drainage of Rainwater and Waset Water of S.
